

*Setting standards  
in analytical science*

## **Traceability in Chemical Testing – Meeting Accreditation Requirements**

- 09:00** *Registration and coffee*
- 09:20** Welcome and introduction
- 09:30** **Introduction to traceability**
- 10:10** **Achieving traceability in chemical measurements**
- 10:50** **Workshop 1:** Traceability of results from an analytical method, general aspects
- 11:35** *Coffee*
- 11:55** **Roles of reference materials in achieving traceability**
- 12:25** **Workshop 2:** Achieving traceability for the measurement step
- 13:10** *Lunch*
- 14:00** **Uses of reference materials in the analytical process**
- 14:45** **Workshop 3:** Use of reference materials in evaluating bias and in instrument calibration
- 15:30** *Tea*
- 15:50** **Selection of reference materials**
- 16:30** **Workshop 4:** Selection of reference materials
- 17:15** Close
